Our Vision & Mission

Zerothi Vision

We're building a system to deliver reliable, rooted food at scale — bringing the real taste of Nimar to modern homes everywhere through modern, hygienic, and scalable food processing.

Zerothi Mission

To source high-quality ingredients, process them using modern and hygienic methods with refined oil, and deliver fresh, preservative-free snacks with consistent taste and quality.

BORN FROM TRADITION

Born from Tradition

Rooted in Nimad

Zerothi was born from a simple idea to bring the real taste of Nimar to modern homes. We focus on purity, process, and consistency.

Coming from Nimad, where food is still rooted in tradition, we saw an opportunity to bring that same real taste and process to a wider market.
